

## Patient Information:

**Name:** Fatima

**Date of Birth:** 08/17/1997

**Patient ID:** 10024563

**Date of Report:** 04/18/2024

**Referring Physician:** Dr. Nour Haddad, MD

**Specialty:** Dermatology

**Contact Information:** [Physician's Contact Information]

## Introduction:

This medical report is prepared for Fatima following her dermatology consultation on 04/17/2024 to evaluate her ongoing skin condition and determine appropriate treatment.

## Medical History:

Fatima has a history of mild eczema during childhood. She has no chronic illnesses and no known drug allergies. She reports sensitive skin and a family history of allergic conditions.

## Presenting Complaints:

Fatima presented with persistent facial redness, dryness, and itching, particularly after sun exposure. She also reported intermittent flare-ups with mild swelling.

## Diagnostic Tests Conducted:

- Dermatological skin examination
- Allergy sensitivity assessment
